Professional Summary

ICT Specialist with 4+ years of experience in IT support, systems administration, and cybersecurity. Skilled in Windows, macOS, and Linux environments, Microsoft 365, ERP systems, Active Directory, and administration. Proven track record of supporting 1000+ users, reducing response times, strengthening endpoint security, and maintaining 99.95% QA accuracy in AI-driven systems. Strong in troubleshooting, system optimization, and delivering reliable, user-focused IT solutions.

Key Skills & Competencies

- IT Support & Helpdesk: Incident management, ticketing systems, user onboarding, account provisioning, hardware & software setup, and printer support
 - Systems & Administration: Windows, Linux, macOS, Active Directory, Microsoft 365, ERP systems, VPN.
 - Cybersecurity: Endpoint protection, system hardening, access control, backups & disaster recovery, security awareness, basic threat detection
 - Software & Deployment: SDLC, application deployment, debugging, Git, scripting, technical documentation
 - ICT Operations: Asset management, ICT rollout, performance maintenance, vendor coordination, cross-team collaboration
-

WORK EXPERIENCE

Freelance IT Support Consultant

Self-Employed | 2025 – Present

- Provided hands-on IT support, troubleshooting, system setup, and maintenance for individual and business clients.
- Installed, configured, and maintained computers, software, printers, network devices, and peripherals.
- Troubleshoot hardware, software, operating system, and network connectivity issues.
- Perform preventive maintenance, system optimization, backups, and basic security configuration.
- Advise clients on IT best practices, cybersecurity awareness, system upgrades, and reliable technology solutions.

IT Support

APSEA | 2024 – 2025

- Set up and configured new computers, workstations, user accounts, software, and peripherals.
- Provided hardware and software troubleshooting, resolving system, connectivity, and performance issues.
- Installed, configured, and maintained business applications and other software.
- Diagnosed and resolved printer and peripheral issues to minimize downtime.
- Performed QuickBooks backups, preventive maintenance, and day-to-day technical support.

ICT Support Technician – Attaché & Volunteer

Zetech University | Apr 2023 – Apr 2024; Aug 2025 – Nov 2025

- Provided IT support to 1000+ users, troubleshooting hardware, software, network, and system-related issues.
- Managed Active Directory accounts, user permissions, and ERP access while maintaining secure access controls.
- Installed, configured, and maintained desktops, laptops, printers, biometric systems, and CCTV equipment.
- Troubleshoot LAN/Wi-Fi connectivity issues and supported network infrastructure to minimize downtime.
- Performed system updates, preventive maintenance, backups, and basic recovery procedures.
- Maintained IT asset records and coordinated equipment repairs and vendor support.
- Developed user guides and onboarding documentation to improve user adoption and support efficiency.

Project Management Associate Intern

Excelerate | Jan 2025 – Feb 2025

- Supported planning and execution of virtual hackathons and technology-driven projects.
- Coordinated technical setup, project tracking, reporting, and stakeholder communication.
- Monitored project activities and supported delivery of project milestones within agreed timelines.
- Collaborated with cross-functional teams to resolve operational and technical issues.

AI Data Annotation, Trainer, Reviewer & QA Specialist

Sama | CloudFactory | Bognér & Partners | Label Your Data | iMerit | Jan 2021 – Apr 2026

- Performed AI/ML data annotation, validation, review, and quality assurance across large-scale projects.
- Maintained 99.95% QA accuracy while working under strict quality and productivity requirements.
- Reviewed and corrected annotated data to ensure compliance with project guidelines and quality standards.
- Identified workflow and quality gaps and recommended process improvements.
- Collaborated with distributed teams using Slack, Microsoft Teams, Discord, and other project platforms.

Education

Bachelor of Software Engineering

Zetech University | 2023 – 2025

Diploma in Software Engineering

Zetech University | 2021 – 2023

Cybersecurity Analyst Program

Cyber Shujaa (USIU) | May 2025 – Aug 2025

Cybersecurity analysis, endpoint protection, threat detection, and secure system operations

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Cisco DevNet Associate – Cisco Networking Academy
- CyberOps Associate – Cisco Networking Academy
- Network Defense – Cisco Networking Academy
- Endpoint Security – Cisco Networking Academy
- SQL Injection Attack – EC-Council, 2022
- Getting Started with DevOps – Simplilearn, 2023
- Learn-A-Thon – Cisco, 2022 & 2025
- Agile Project Management – Coursera, 2024
- Business Analysis & Process Management – Coursera, 2024
- Virtual Assistance Certificate – ALX Africa, 2024
- Team Lead Certification Program – Sama
- Leaders Worth Following Program – CloudFactory
- Chatbot Development (Chatfuel) – Coursera, 2023
